

Agrotechners Farmer Producer Company Limited 100% Bamboo Based Carbon

Factory Address :- Gat No 364 ,Dhamane Fata ,Deobhane ,NH-3 ,Dhule -424307.

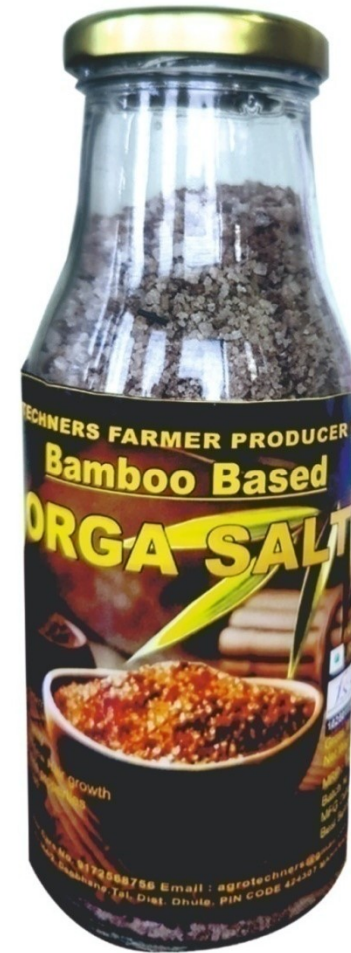

Website:- www.agrotechners.com , Email :- shashankjoshi88@gmail.com

Customer Care :- 9890178756 ,9673366756

- ### Benefits :-

- M.R.P = 3,400/- per kg.**

Vermiline - Pro

Composition :-

- .Bamboo Based Liquid Carbon = 25%
- . Humas Content = 45 %
- . Material With Trashes = 30% .

Dosage :-

- . Foliar use – 50 ml per LTR of water
- . Drenching - 10 LTR per Acre as per crop size

Benefits :- For All Crops

- Healthy Growth of Crops
- Well Growing vegetative growth of all Fruit and Root Based Crops
- Maintains flower boosting and blossoming
- Improves Vital Growth of Crop
- Develops Immunity System in the crop
- Increasing porosity of soil
- Prevents all Soil Born Diseases .

MRP :- 1,570/- per 5 Ltr

Carbo Verm

Composition :-

Bamboo Based Vermi Compost = 95%

Bamboo Base Solid Carbon = 5%

Dosage :-

15 kg Per Acre

Benefits :- For All Crops

- Healthy Growth of Crops
- Well Growing vegetative growth of all Fruit and Root Based Crops
- Maintains flower boosting and blossoming
- Improves Vital Growth of Crop
- Develops Immunity System in the crop
- Increasing porosity of soil
- Prevents all Soil Born Diseases .

MRP : 130/- Per Kg

Carbo Boost

Composition :-

Bamboo Based Solid Carbon = 98%

Filler Material 2%

Dosage :-

3 kg Per Acre

Benefits :- For All Crops

- Healthy Growth of Crops
- Well Growing vegetative growth of all Fruit and Root Based Crops
- Maintains flower boosting and blossoming
- Improves Vital Growth of Crop
- Develops Immunity System in the crop
- Increasing porosity of soil
- Prevents all Soil Born Diseases

MRP : 777/- Per Kg

Bhoom G Fruit ++

Bamboo Based Solid Carbon = 9%

Filler Material = 2%

Potassium Fuvate= 6%

Surfactant = 2%

Bentonite Based Granules= 80%

Dosage :-

30 Kg per Acre

Benefits :- For All Crops

- Healthy Growth of Crops
- Well Growing vegetative growth of all Fruit Crops
- Maintains flower boosting and blossoming
- Improves Vital Growth of Crop
- Develops Immunity System in the crop

MRP : 1,390/- Per 10 Kg

Bhoom G Crop

Bamboo Based Solid Carbon = 5%

Hydrolyzed Protein = 6%

Potassium Fuvate = 9%

Surfactant = 2%

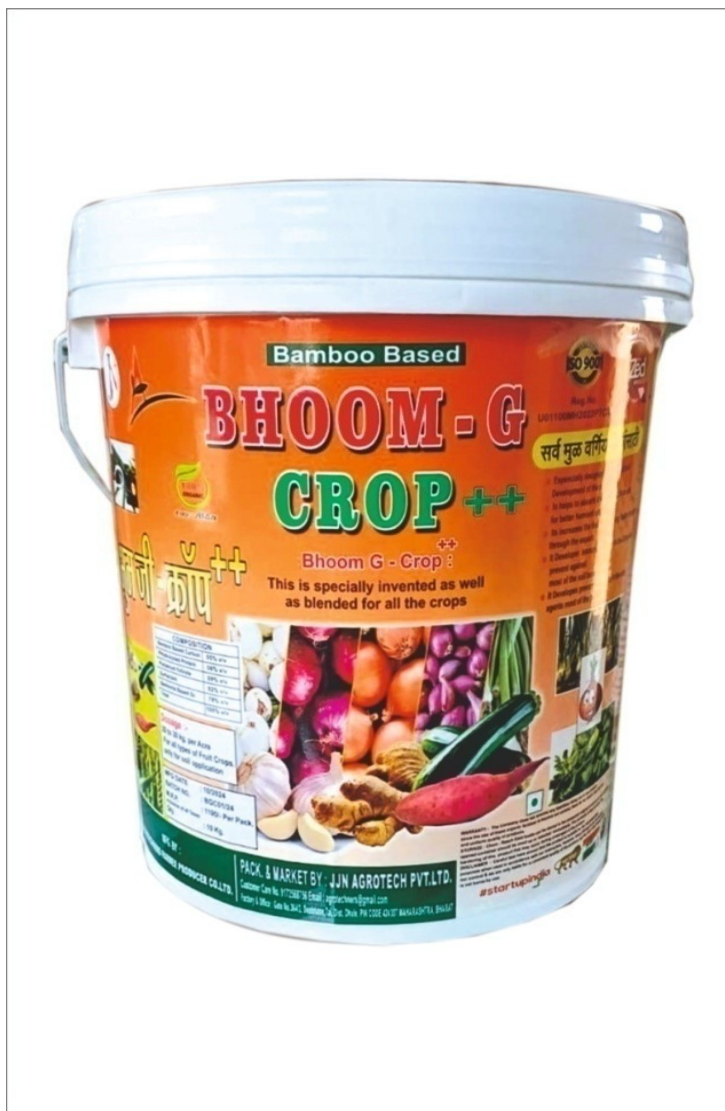

Bentonite Based Granules = 78%

Dosage :-

30 Kg per Acre

Benefits :- For All Root Based Crops

- Healthy Growth of Crops
- Well Growing vegetative growth of all Root Based Crops
- Increasing Size of Root Based Vegetables
- Prevents all Soil Born Diseases
- MRP : 1,450/- Per 10 Kg

Chem Reach Pappy ++

Composition :-

Bamboo Based Liquid Carbon = 40%

Protein Derivatives = 20%

Potassium Humate = 8%

Extra Molecular substances = 32%

Dosage :-

- . Foliar use – 3 ml per LTR of water
- . Drenching - 30 ml to 40 per Sapling as per crop size

Benefits :- For Papaya

- Healthy Growth of Crops
- Well Growing vegetative growth
- Maintains flower boosting and blossoming
- Preventive against sucking pest
- Improves Vital Growth of Crop

MRP :- 990/- per Liter

Chem Reach Citro-Fast

Composition :-

Bamboo Based Liquid Carbon = 60%

Seaweed Extract = 16%

Potassium Fuvate = 12%

Carrier Material = 12 %

Dosage :-

- . Foliar use – 3 ml per LTR of water
- . Drenching - 30 ml to 40 per Sapling as per crop size

Benefits :- For All Citras family Crops

- Healthy Growth of Crops
- Well Growing vegetative growth
- Maintains flower boosting and blossoming
- Preventive against sucking pest
- Improves Vital Growth of Crop

MRP :- 980/- per Liter

Chem Reach Cane Grow

Composition :-

Bamboo Based Liquid Carbon = 30%

Hydrolysate Protein = 12% +

Seaweed Extract = 10% +

Potassium Silicate = 8%

Dosage :-

Drenching - 4 to 5 LTR per Acre as per crop size

Benefits :- For All Sugarcane Family Crops

- Healthy Growth of Crops
- Well Growing vegetative growth
- Maintains flower boosting and blossoming
- Preventive against sucking pest
- Improves Vital Growth of Crop

MRP :- 1,040/- per Liter

Chem Reach Prom - Up

Composition :-

Bamboo Based Liquid Carbon = 70%

Seaweed Extract = 10%

Fulvic Acid = 6%

Natural Bamboo Silica = 8%

Carrier Substances = 6%

Dosage :-

- . Foliar use – 3 ml per LTR of water
- . Drenching - 30 ml to 40 per Sapling as per crop size

Benefits :- For All Hard Cover Fruit Crops

- Healthy Growth of Crops
- Well Growing vegetative growth
- Maintains flower boosting and blossoming
- Preventive against sucking pest
- Improves Vital Growth of Crop

MRP :- 1,145/- per Liter

Chem Reach Cottosmart

Cotton Special (Bamboo Based)

Composition :-

Bamboo Based Liquid Carbon = 50%

Potassium Silicate = 9%

Seaweed Extract = 11%

Organic Substances and Carrier = 20%

Dosage :-

- . Foliar use – 3 ml per LTR of water
- . Drenching - 2 to 3 LTR per Acre as per crop size

Benefits :- For All Cotton Family Crops

- Healthy Growth of Crops
- Well Growing vegetative growth
- Maintains flower boosting and blossoming
- Preventive against sucking pest
- Improves Vital Growth of Crop

MRP :- 1,130/- per Liter

Chem Reach Carbon

Banana Special (Bamboo Based)

Composition:-

Bamboo Based Liquid Carbon = 67%

Potassium Humate = 10%

Emulsifier = 12%

Carrier Substances = 11%

Dosage :-

. Drenching - 4 to 5 LTR per Acre as per crop size

Benefits :- For BANANA

- Healthy Growth of Crops
- Well Growing vegetative growth
- Maintains flower boosting and blossoming
- Preventive against sucking pest
- Improves Vital Growth of Crop

MRP :- 1,060/- per Liter

Chem Reach Onosmart Onion Special (Bamboo Based)

Composition :-

- Bamboo Based Liquid Carbon = 30%
- Potassium Silicate= 16%
- Humic Acid =13%
- Surplus Substances = 28%
- Humic Acid = 13%

Dosage :-

- . Foliar use – 3 ml per LTR of water
 - . Drenching - 2 to 3 LTR per Acre as per crop size
-
- **Benefits :- For All Root Based Crops**
 - Healthy Growth of Crops
 - Well Growing vegetative growth
 - Maintains flower boosting and blossoming
 - Preventive against sucking pest
 - Improves Vital Growth of Crop

MRP :- 930/- per Liter

Chem Reach Platinum

Bamboo Based For All Crop

Composition :-

- . Bamboo Based Liquid Carbon = 40%
- . Hydrolysate Protein = 30%
- . Potassium Fulvate = 10%
- . Seaweed Extract = 10%
- . Carrier Substances = 10%

Dosage :-

- . Foliar use – 3 ml per LTR of water
- . Drenching - 2 to 3 LTR per Acre as per crop size

Benefits :- For All Crops

- Healthy Growth of Crops
- Well Growing vegetative growth
- Maintains flower boosting and blossoming
- Preventive against sucking pest
- Improves Vital Growth of Crop

MRP :- 1,070/- per Liter

Chem Reach Diamond

Bamboo Based For All Crop

- . Bamboo Based Liquid Carbon = 45%
- . Protein Derivatives = 20%
- . Algenic Acid = 5%
- . Carrier Substances = 30%

Dosage :-

- . Foliar use – 3 ml per LTR of water
- . Drenching - 2 to 3 LTR per Acre as per crop size

Benefits :- For All Crops

- Healthy Growth of Crops
- Well Growing vegetative growth
- Maintains flower boosting and blossoming
- Preventive against sucking pest
- Improves Vital Growth of Crop

MRP :- 1,370/- per Liter

Chem Reach Silver

Bamboo Based All Crops

Composition :-

- . Bamboo Based Liquid Carbon = 60%
- . Sieving of Blending agents Algenic Acid = 8%
- . Fulvic Acid = 6%
- . Carrier Material = 26%

Dosage :-

- . Foliar use – 3 ml per LTR of water
- . Drenching - 2 to 3 LTR per Acre as per crop size

Benefits :- For All Crops

- Healthy Growth of Crops
- Well Growing vegetative growth
- Maintains flower boosting and blossoming
- Preventive against sucking pest
- Increases Soil Carbon.

MRP :- 1,255/- per Liter

Chem Reach Gold

Bamboo Based All Crops

Composition :-

Bamboo Based Liquid Carbon = 50%

Sieving of Blending agents Potassium Humate = 6%

Potassium Fulvate = 5%

Carrier Material = 39%

Dosage :-

- . Foliar use – 3 ml per LTR of water
- . Drenching - 2 to 3 LTR per Acre as per crop size

Benefits :- For All Crops

- For Better Development of white roots
- Increases growth of Flowers and Fruits
- Best Preventive Agent against sucking pest
- Best For Vital growth of Crop.
- Increases Soil Carbon.

MRP :- 1,170/- per Liter

Chem reach Just Chillies

Composition :-

Bamboo Based Liquid Carbon = 24%

Amino Acid = 20%

Fulvic Acid= 8%

Humic Acid = 8%

Carrier Substances = 40%

Dosage :-

. Foliar use – 3 ml per LTR of water

. Drenching - 2 to 3 LTR per Acre as per crop size

Benefits :-

- Healthy Growth of Crops
- Well Growing vegetative growth
- Maintains flower boosting and blossoming
- Preventive against sucking pest
- Improves Vital Growth of Crop

MRP :- 1,090/- per Liter
